

# ZISHAN RAHMAN

I am a Computer Science at King's College London, doing a BSc with a year in industry and potentially on track for a first classification. Currently I seek a full-time industrial placement as a programmer and/or software developer to hone my skills into a professional environment.

## Main Skills

- Python programming (very well experienced)
- Java programming (well experienced)
- Godot game development including GDScript programming (well experienced)
- Problem solving (reasonably experienced)
- Time management (reasonably experienced)
- Teamwork (mildly experienced)
- Lua programming (beginner)

## Positive Traits

- I consider myself both ambitious and pragmatic.
  - I'm constantly thinking of new ideas and always eager to learn new things and skills, as well as using well-known technologies and reliable methods to achieve my goals.
- My aspirations and work are heavily linked with my interest in computers and, particularly, software and data.

## Recreation

- Playing and making games
- Listening to music, and making it with Cakewalk by BandLab
- Browsing the web
  - Watching YouTube videos
  - Reading Wikipedia articles
- Trivia and quizzes
